

KIWOMAT™ Coating Machine Comparison Chart

Standard Features	KIWOMAT™ MODEL		
	PRO	BASIC	SIMPLEX
Micro- processor controlled system	◆	◆	◆
Variable speed motor	◆	◆	◆
Sturdy two-column design	◆	◆	◆
Precision chain drive.	◆	◆	◆
Pneumatic coating trough activation to assure uniform coating pressure.	◆	◆	◆
Control panel with adjustments for coating trough pressure and number of coatings for both front and back side of the screen.	◆	◆	◆
Coating cycle also allows simulating manual coating technique	◆	◆	◆
Easy-load frame loading	◆	◆	◆
Coating troughs with 1mm and/or 2mm edge profile	◆	◆	◆
Digital control panel with storage space for over 100 coating programs	◆		
Digital control panel (without storage)			◆
Analog control panel (without storage)		◆	
Optional Features	KIWOMAT™ MODEL		
	PRO	BASIC	SIMPLEX
Large format from 49" x 57" up to 236" x 157"	◆	◆	
Landscape format up to 157" wide	◆	◆	
Motorized frame clamping bar	◆	◆	
Multi frame coating + clamping system	◆	◆	◆
Multi profile selection	◆	◆	
Frame side loading	◆	◆	
Variable dive	◆	◆	
Profiling for widebody machines	◆	◆	
Energy efficient Infrared drying device	◆		
Automatic coating trough covers	◆		
Edge cleaning device	◆
