

KIWO MEGA-CLEAN ACTIVE

1. DESCRIPTION

KIWO Mega-Clean Active is a solvent & haze remover paste for the removal of most ink stains and emulsion residue in the screen. It is formulated to be brushed onto the screen and rinsed off of the screen with water.

2. APPLICATION

Before using KIWO Mega-Clean Active, the screen must be reclaimed.

Apply KIWO Mega-clean Active onto both sides of the screen using a brush. Dispose of any excess KIWO Mega-Clean Active, do not pour it back into the container.

Brush both sides of the screen. To prevent KIWO Mega-Clean Active from spraying off of the screen onto the user, rinse the screen with high-volume/low-pressure water followed by high pressure washer to remove the dissolved and emulsified residue.

KIWO Mega-Clean Active has strong cleaning power and may attack the frame adhesive, mesh, and frame if the product remains on the screen for more than 5 to 10 minutes.

3. PHYSICAL DATA

Color:	pale yellow/milky white
Consistency:	Paste
Shelflife:	1 year at 68° Fahrenheit (20° Celsius)
Flash point:	>200°F
TLV:	2 mg/m ³ ceiling sodium hydroxide
VOC:	3.85 lbs/gal (462g/liter)
Vapor Pressure:	<0.1 mm Hg at 20°C
HMIS rating:	Health - 2 Flammability - 1 Reactivity - 0

4. PERSONAL PROTECTION

Do not breathe fumes. All working areas should be well ventilated. Avoid contact with eyes and skin. It is recommended to wear protective glasses and gloves. Use respiratory protection if exposure limits are exceeded. See Material Safety Data Sheet for additional information.

5. ENVIRONMENTAL PROTECTION

KIWO Mega-Clean Active can be eliminated through biological decomposition in adapted waste water treatment plants. The working solution (rinsed from the screen) can generally be emptied into the drains. Consult local authorities for local regulations.

6. PACKAGING

1 US quart, 1 US gallon, 5 US gallon, 55 US gallon drums
