

PREGAN 1014 E

1. DESCRIPTION

PREGAN 1014E is a solvent based cleaner used to remove dried KIWO PRINT D series pressure sensitive adhesives and heat sealable MECOTHERM D120 adhesive.

2. USE

PREGAN 1014E will sufficiently soften the dried adhesive so it can be removed with water in the normal manner from printing tools, equipment, and the stencil at the end of the print run.

During press runs, PREGAN 1014E should not be used to clean the stencil as it may attack the stencil.

This solvent mixture IS NOT A THINNER and cannot be used as such.

3. PROPERTIES

BASE: Solvent naptha and glycol ether

COLOR: Slightly pink

SPECIFIC GRAVITY: 0.90

VOC: 815 g/ltr
6.79 lbs/gal

FLASH POINT: 30°C / 86°F

PRECAUTIONS/
ENVIRONMENTAL

IMPACT: Please see MSDS

STORAGE: Indefinite in tightly closed original container

4. PACKAGING

1 qt

1 Gal
