

## KIWOCOLOR® COLOURING PASTES

### Colouring pastes for KIWOBOND frame adhesives

KIWOCOLOR colouring pastes are strongly coloured pigment pastes. They are used to dye polyurethane based KIWOBOND adhesives. Especially suitable for the KIWOBOND 2000 COLOR adhesive system. Best colours can be obtained when using colourless adhesives and hardeners. Individual colouring is possible as well.

KIWOCOLOR colouring pastes are available in the following colours:

Y-03	yellow
R-04	red
B-05	blue
G-13	green

### APPLICATION

**Processing** Apply 5 up to 10% depending on the tone and opacity required. The pastes can be mixed with each others. Add the KIWOCOLOR colouring pastes to the adhesive / hardener mixture and distribute well by stirring.

**Cleaning** KIWOSOLV L 63

### PRODUCT DATA
